

*Professional Services, Engineering, Technology &
Physical Security Excellence from Concept to Completion*

WHO WE ARE

B Mitchell Group (BMG) helps organizations plan, design, manage, and deliver complex technology, telecommunications, infrastructure, and electrical systems projects. From concept through completion, we provide the technical expertise, strategic guidance, and project leadership needed to transform ideas into successful outcomes.

CORE CAPABILITIES

BMG delivers consulting, design, engineering support, construction management, and owner's representative services for telecommunications infrastructure, network systems, low-voltage systems, wireless communications, distributed antenna systems (DAS), structured cabling, electrical systems, data centers, and mission-critical facilities. Our team utilizes AutoCAD, Revit, and BIM technologies to develop innovative, scalable solutions that support today's operational demands and tomorrow's growth.

WHY CLIENTS CHOOSE BMG

- One trusted partner from planning through project delivery
- Expertise across telecommunications, IT, infrastructure, and electrical systems
- AutoCAD, Revit, and BIM-enabled project execution
- Strategic planning, feasibility studies, and technology assessments
- Construction management and owner's representative expertise
- Public and private sector project experience
- Certified MBE/SBE firm

SERVICES

Architecture & Engineering (A&E) • Design Services • Electrical Engineering • Communications Systems • Information Technology • Telecommunications • Network Infrastructure • Low Voltage Systems • Wireless Communications • Data Centers • CAD/Revit Modeling • Technical Services • Project Management • Owner's Representative Services • Planning & Consulting • Relocation Planning & Coordination Services

2 Summerfield Drive, Monroe, NJ 08831
